including a tour of Egypt and the principal countries bordering upon that inland sea. Many witty references were made to the trip, the menu card bearing a picture of the Sphynx, with Mr. Warner's portrait, a camel and a donkey in th oreground and the Pyramids in the distance. The animals, it is said, were the principal means of locomotion while in Egypt, and the donkey bore Mr. Warner on the trip to the tombs of the ancient kings. At the close of the banquet the original drawing from which the menu card was printed was presented in pleasant speech by Charles F. Nesbit.

The banquet was interrupted almost in the beginning to permit Commissioner Macfarland to make a short speech of welcome to Mr. Warner, and to express tired to participate in another gathering to which he had been invited.

Welcomed by J. T. Du Bois.

James T. Du Bois, formerly consu general to Switzerland, made the formal speech of welcome in behalf of the entertainment committee. Mr. Du Bois and Mr. Warner were boys together in the Empire State, and the speaker gave a very witty and eloquent recital of the early career of Mr. Warner before he

Mr. Warner spoke last, passing briefly over the reasons for the outpouring of his friends, which he said stirred him deeply. He made some reference to the trip, describing it as a great source of education and enjoyment, after many years of constant work. Mr. Warner spoke more at length about the immigration to this country, a portion of which came under his observation at different times while away, and he said he had been converted to the idea that immigration was a valuable asset to the country instexel of a handicap. He related his experience in the passage from Liverpool, describing the character of the steerage passengers and related the results of some observations he had made in New York relative to the matter.

The committee in charge of the dinner were James T. Dubols, John McElroy, Thomas Hopkins, Charles F. Nesbit, Thomas H. Anderson, and T. C. Noyes.
